Terms and Conditions of Sale

This is a wholesale catalog and intended for trade buyers as we do no retail business. This list cancels all previous quotations. Prices as quoted are f. o. b. Hicksville, and include packing. Terms are less 5% for cash with order or net 60 days, less 2% in ten days, on approved credit.

Non-Warranty

Although we exercise the greatest care and precaution in sending out only such stock as should perform entirely satisfactory, we nevertheless give no guarantee, expressed or implied, as to the quality, description or productiveness of any bulbs or roots we send out and will in no way be responsible for the crop. If the purchaser does not accept our bulbs or roots under these conditions, they are at once to be returned. No claims whatever will be allowed unless reported to us within 48 hours after the merchandise is received.

Less than 25 bulbs sold at the dozen rate, from 25 to 249 at the 100 rate, 250 and more at the 1000 rate.

These Narcissus, with their sweet-scented clusters of white, cream and yellow flowers, are used most extensively for winter flowering in the home and the ease with which they can be so readily flowered under home conditions makes them one of the leading subjects for store sales. We suggest that these bulbs be offered for sale in combination with fancy bowls and other containers, together with the necessary planting material such as bulb fibre or pearl chips—both of which are offered on back cover.

For florist's use they provide a quick catch crop through the mid-winter months when flowers are usually scarce and expensive.

Paper-White Grandiflora

Our bulbs are grown in Northern Florida in a section that has consistently produced the finest quality stock available in this country.

GIANT DARWIN TULIPS

Finest Quality English Grown

We expect a liberal supply of Tulips from England this Fall. This will be the third year we have handled this stock and it has performed well for all of our customers.

While our list of varieties is not a long one—it is an exceptionally good one—and it contains the most popular varieties in practically every color.

Easter in 1943 is very late—April 25th—and many varieties such as Clara Butt, Inglescombe Yellow, etc., which cannot be forced for the average Easter date can very well be used for this season.

	Doz.	100	1000
AFTERGLOW. Beautiful two-toned variety of extra long stems. Not suitable for forcing but a real beauty outdoors.	10 ctm. .65 11 ctm. .80	\$4.50 5.50	\$37.50 47.50
BARONNE DE LA TONNAYE. Fine sturdy grower. Deep rose with light pink and lavender shadings. An old standard variety that is still very popular.	10 ctm. .55 11 ctm. .75	4.00 5.25	35.00 45.00
BARTIGON. Uniform shade of pleasing red. This has long been a Florists' favorite for pot culture. It is an early bloomer and good grower both forced and in the garden.	10 ctm. .65 11 ctm. .80	4.50 5.50	37.50 47.50
CLARA BUTT. A striking shade of salmon-pink that is not duplicated in any other variety. Deservedly one of the most popular of all Tulips and accordingly we have arranged for an extra supply.	10 ctm. .50 11 ctm. .55	3.25 4.00	27.50 35.00
FARNCOMBE SANDERS. One of the most popular red varieties. Large globular flower on long, strong stem and a good grower.	10 ctm. .55 11 ctm. .75	4.00 5.25	35.00 45.00
INGLEScombe YELLOW. See listing under Cottage Tulips on opposite page.			
KING GEORGE V. Brilliant cherry-red with blue and white base. A large handsome Tulip of perfect form. Good for forcing or in the garden.	10 ctm. .65 11 ctm. .80	4.50 5.50	37.50 47.50
MADAM KRELAGE. In our fields this Spring this variety was outstanding. Large, tall grower of a beautiful two-toned shade of rose-pink that blends to lighter pink at petal edges.	10 ctm. .55 11 ctm. .75	4.00 5.25	35.00 45.00
PRIDE OF HAARLEM. This old favorite is well known to all Tulip lovers. The deep, old rose flowers are very large and produced on long, strong stems. It is still one of the most popular of all.	10 ctm. .55 11 ctm. .75	4.00 5.25	35.00 45.00
PRINCESS ELIZABETH. This is a beautiful variety of clear, deep pink and one that has been the choice in this color of Florists and garden planters for many years.	10 ctm. .55 11 ctm. .75	4.00 5.25	35.00 45.00
PROFESSOR RAUWENHOF. Cherry-rose. Good, sturdy grower.	10 ctm. .55 11 ctm. .75	4.00 5.25	35.00 45.00
REV. EBANK. An even shade of lavender-violet that is the most popular in this color for outside planting. Not suitable for forcing.	10 ctm. .55 11 ctm. .75	4.00 5.25	35.00 45.00
WILLIAM Pitt. Even shade of bright red on strong stems of moderate height. The outstanding red variety for Florists on account of its earliness but also a beautiful Tulip in the garden.	10 ctm. .65 11 ctm. .80	4.50 5.50	37.50 47.50
YELLOW GIANT. Tall, globular shaped, deep yellow variety that produces a great effect for outdoor planting.	10 ctm. .55 11 ctm. .75	4.00 5.25	35.00 45.00
ZWANENBURG. This was the first of the pure white Darwin Tulips and immediately became a great favorite. We feel fortunate in having a supply to offer and we ask our customers to also consider "Albino" and "Carrara"—two other pure whites that are just as beautiful—See Cottage Tulips.	10 ctm. .70 11 ctm. .90 12 ctm. 1.10	4.75 6.00 7.50	40.00 52.50 65.00

RANUNCULUS PACKAGE

ANEMONE PACKAGE

Anemones and Ranunculus

Each year sees these two subjects become more prominent and flower shops all over the Country are featuring them regularly throughout their season.

The accepted method for growing them is to soak the bulbs in tepid water for two hours and to plant them in regular bulb flats which should be placed in full light. The temperature control is important and the houses should be kept cool and well ventilated. Also very successfully grown in cold frames where they must be planted in late Fall and covered with dry mulching and sash during winter.

AMARYLLIS – Giant Hybrids

No other bulbous subject offers such an opportunity for the development of increased sales and satisfied customers as these Hybrid Amaryllis. For years we have aided in their development and have started many concerns selling them—and we never get an unfavorable report.

For house culture the ease with which they can be flowered makes them the outstanding subject for this purpose and they also make a beautiful pot plant for florist use. The colors are mixed and range from pure white through the various pink shades to deep red.

Amaryllis Halli

Amaryllis Halli

(*Lycoris Squamigera*)

The bulb produces its foliage in spring which is followed by a tall lavender spike of beautiful flowers in midsummer. It is perfectly hardy and a splendid permanent subject for summer flowering in northern gardens.

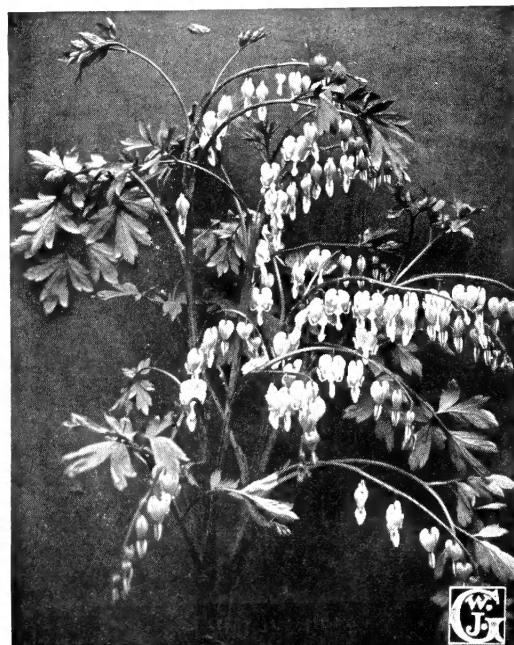

Each, \$0.75; per doz, \$8.40; per 100, \$65.00

CALLA LILIES

Callas are now such an important crop that they should be grown by every florist who has a retail outlet. Aethiopica and Godfrey are ready in September and should be planted as early as possible for best results. Elliottiana, Alba Maculata and Rehmani are available middle of October and can be planted indoors then or through to the early Spring months—depending upon when flowers are wanted. These latter three varieties are now widely used for outdoor Summer flowering and for this purpose should not be planted until danger of frost is over in the Spring.

BULBOUS IRIS

No other bulbous crop offers such a spread between bulb costs and average flower return as these Iris. They occupy small greenhouse space and are not difficult to force when simple basic cultural rules are followed. And they do well outdoors too—either in frames or in the field. With careful planning a constant crop of flowers can be had from Christmas to June and they invariably bring big prices.

Single Peonies

We are moving a field of Peonies this fall and, wishing to dispose of a small surplus of Single varieties, are offering them at prices much below their true value.

These Single Peonies have several advantages over the Double types. They are more easily grown and usually produce many more flowers. The lightness of the flower heads permits them to stand erect throughout the whole time they are in bloom while most of the heavier Doubles bend over. When cut they have a graceful charm not available in any other flowers. Many are delightfully fragrant.

Here is an opportunity to get a supply of these rare Single types at a bargain price.

The colors range from pure white through the various shades of pink to deep red, and we offer a fine mixture of all these colors at:

Each, \$30; Doz., \$3.00; 100 \$20.00

LILUM REGALE

Hardy Lilies

LILUM REGALE — Ready for Delivery About Oct. 15th

Not only is this one of the most beautiful of all Hardy Lilies, but it has the additional important quality of seemingly adapting itself to many different locations and doing uniformly well. It will thrive and produce splendidly in any ordinary garden location. It is a white trumpet Lily with markings of pink, yellow and light brown, extremely fragrant and flowers in June.

FLORISTS' EASTER LILIES

For many years we have played a leading role in the development of a fine type of Easter Lily that is being grown in Florida and which we called "Floridi". The stock is of course available only in limited quantities at the present time but we are anxious to give it as wide a distribution as possible and will be glad to hear from Florists who are interested in giving it a trial. This Lily produces a very large flower of heavy texture and is pure white. The foliage is deep green, perfect right to the ground line, and the whole plant is vigorous and healthy. It is considered much superior to any of the types formerly imported.

Wrapped Perennial Packages

In addition to the wrapped Peonies and bleeding hearts offered on other pages in this catalog, we list below a number of other popular perennials that can be shipped in the Fall season. Each plant is packed in dampened sphagnum moss and individually wrapped with waterproof craft paper with a label showing the plant in natural colors.

AQUILEGIA (Columbine). Fine strain of long spurred hybrids.

ARMERIA (Thrift). Evergreen tufts of dwarf plants with flowers of rose-pink that bloom all season.

ASCLEPIAS (Tuberosa). Brilliant orange scarlet flowers in July and August.

CARNATIONS (Hardy Pinks). Red, White, Pink. Large flowers that resemble the hot-house grown. Excellent for cutting.

DELPHINIUM (Hardy Larkspur). White, dark blue, light blue, Hybrids. We have a large stock of the best of the American and English strains.

DIANTHUS BARBATUS (Sweet-William). Red, Pink and mixed colors.

FUNKIA SUBCORDATA (Sept. Lily). Large green foliage and white, lily-shaped flowers.

FOR BULK BULBS

Flowering Bulbs in themselves convey no impression to the customers' minds as to what they will produce and usually it is necessary that the display of each variety be accompanied with an illustration showing what the flower is like. This is very important in the sale of dry bulbs and not over the counter. We have prepared a series of cards showing the varieties as shown in the catalog. These cards cost 10¢ each. Show the flower in natural color, not giving the name of the flower on the card for naming. These cards are sent free with the order.

Gladiolus and Dahlias

For Forcing and Early Planting In The South

While a complete list of these subjects will be shown in our spring catalog — ready for mailing January 1st — we are prepared at this time to quote prices for those who are interested in placing earlier orders. Our Gladiolus plantings, among the largest in the East, include liberal quantities of the acknowledged commercial leaders as well as newer kinds that are now available at prices that will permit of quantity planting. In Dahlias we are maintaining our position as the foremost suppliers of the leading cut flower kinds, and are prepared to quote our usual special prices on the finest available varieties—including many new ones that are making a fine showing in our fields. Ask for these quotations if you want them and be sure that your name is on our mailing list to receive the spring catalog.
